

Neuro-Otology Society of Australia (NOTSA)
New Zealand Society for Balance Dizziness and Vertigo (NZSBDV)
 Combined Clinical and Scientific Meeting, 23rd - 25th November 2018
 Inter-Continental Hotel, 2 Grey Street, Wellington, New Zealand

Friday 23 November (Location - Lambton Rooms 1 & 2)			
7:30	On-site Registration	Lambton Pre-Function Lobby (Tea & Coffee available)	
TIME	SPEAKER	TITLE	EMAIL CONTACT
8:10	Stuart Mossman	Welcome Introduction	stuart@mossman.net.nz
Chair	Paul Smith		
8:15	Paul Smith	Evidence that the otoliths are critical for early development in mice	paul.smith@otago.ac.nz
8:30	Rachael Taylor	Characteristics of crossed-sternocleidomastoid responses to monaural air-conducted sound	rachael.taylor@auckland.ac.nz
8:45	Sally Rosengren	Sound-evoked vestibular projections to the sternocleidomastoid, splenius capitis and trapezius muscles in humans	sally@srosengren.org
9:00	Alyssa Dyball	Are the late bone-conducted cVEMP peaks stretch reflexes?	alyssa.dyball@students.mq.edu.au
Adjudicator	David Zee	Debate	
9:15	Leigh McGarvie	Affirmative: The caloric test has been superseded by the vHIT and is no longer of value except for Meniere's Disease	leighm@icn.usyd.edu.au
9:30	Phil Cremer	Negative: The caloric test has been superseded by the vHIT and is no longer of value except for Meniere's Disease	northshorevertigo@bigpond.com
9:45	Floor discussion and Judgement		
10:00	BREAK	Lambton Pre-Function Lobby	
Chair	Michael Halmagyi		
10:30	Leigh McGarvie	The video head impulse vs the suppression head impulse, compared to visual dependency in Normal Subjects	leighm@icn.usyd.edu.au
10:45	Leigh McGarvie	The video head impulse vs the suppression head impulse in a patient tracked over 500 days during recovery from a second neuritis attack	leighm@icn.usyd.edu.au
11:00	Jacob Pogson	Video head impulse gain and saccade characteristics in normal subjects	jacob.pogson@sydney.edu.au
11:15	László Tamás	Vergence increases the gain of the human angular vestibulo-ocular reflex during peripheral hyposensitivity elicited by cold thermal irrigation	ltamas@gyor.net

TIME	SPEAKER	TITLE	EMAIL CONTACT
11:30	Carlo Rinaudo	Do sinusoidal gaze stabilising exercises result in adaptation of the transient (head impulse) VOR?	c.rinaudo@neura.edu.au
11:45	David Zee	The bedside examination of the dizzy patient: a video tutorial	dzee@jhu.edu
12:30	LUNCH	Lambton Pre-Function Lobby	
Chair	Denise Taylor		denise.taylor@aut.ac.nz
13:30	Arimbi Winoto	A snapshot of the vestibular rehabilitation physiotherapy service at the Royal Victorian Eye and Ear Hospital Melbourne	arimbwinoto@gmail.com
13:45	Renee De Maria	Activity-Specific Balance Confidence Scale across vestibular diagnostic groups with comparison to PPPD	rsdm@outlook.com
14:00	Ian Parker	Advanced scope practice of vestibular rehabilitation as an alternative pathway to traditional medical models of care	ian.parker@health.qld.gov.au
14:15	Ian Parker	A systematic review of the reported proportions of diagnoses for dizziness and Vertigo	ian.parker@health.qld.gov.au
14:30	Vicky Stewart	Vestibular physiotherapy in the hospital setting: A PhD wrap-up, and future research plans	vicky_stewart@hotmail.com.au
15:00	Lauren Story	Preliminary report of third party disability resulting from vestibular dysfunction: understanding the experiences of significant others	story.l@unimelb.edu.au
15:15	BREAK	Lambton Pre-Function Lobby	
Chair	Jeremy Hornibrook		jeremy@jhornibrook.com
15:45	Joanna Offord	Acute isolated vertigo due to vestibular nuclear infarction	Joanna.Offord@health.nsw.gov.au
16:00	Allison Young	Capturing acute vertigo with home-video oculography	allison.young.audiologist@gmail.com
16:15	Imelda Hannigan	A case presentation.	imeldahannigan@hotmail.com
16:30	Zeljka Calic	Vestibular migraine presenting with Acute Peripheral Vestibulopathy: clinical, oculographic and vestibular test profiles.	zcalic@hotmail.com
16:45	John Waterston	Severe motion sickness - a possible rare presentation of vestibular migraine	j.waterston@bigpond.com
17:00	Stuart Mossman	CLOSE	
17:10	AGM NOTSA	Neuro-Otology Society of Australia (NOTSA) AGM Lambton Room	
17:10	AGM NZSBDV	New Zealand Society for Balance Dizziness and Vertigo (NZSBDV) AGM Thorndon Room	

TIME	SPEAKER	TITLE	EMAIL CONTACT
18:00	Welcome Reception	Welcome Reception at Foxglove (The Games Room), 33 Queens Wharf, 6:00pm - 8:30pm (5min walk)	
		Saturday 24 November (Location - Lambton Rooms 1 & 2)	
Chair	Luke Chen		lukechen@internode.on.net
8:30	Hamish MacDougall	Virtual reality for vestibular education, testing and rehabilitation	hamish@psych.usyd.edu.au
8:45	Elodie Chiarovano	Virtual reality for vestibular education, testing and rehabilitation	elodie.chiarovano@sydney.edu.au
9:00	Alireza Mazloumi	Biomarker-enhanced virtual reality-based platform for assessing motion sickness susceptibility	Alireza.MazloumiGavgani@uon.edu.au
9:15	Kim Hawkins	Using virtual reality to assess the postural stability of people with Parkinson's Disease.	ktra3354@uni.sydney.edu.au
9:30	Beth Lange	Evaluation of non organic vestibular symptoms using both neuropsychological and posturography assessment	Beth.Lange@albertahealthservices.ca
9:45	Sandeep Rajagopal	New concept of visual cortical hypersensitivity to explain visual vertigo: An alternative to maladaptation/ visual dependence concept	rajagopal.sandeep@gmail.com
10:00	BREAK	Lambton Pre-Function Lobby	
Chair	John Waterston		j.waterston@bigpond.com
10:30	Miriam Welgampola	Bilateral vestibular hypofunction: vestibular test characteristics	m.welgampola@gmail.com
10:45	Luke Chen	Single dose gentamicin vestibulotoxicity: one hit disaster	lukechen@internode.on.net
11:00	Luke Chen	Episodic Ataxia type 2 causes combined cerebellar ataxia and bilateral vestibulopathy	lukechen@internode.on.net
11:15	Duncan Smyth	Two cases of reversible bilateral vestibular failure	Duncan.Smyth@ccdhb.org.nz
11:30	Duncan Smyth	Assessment of the cause of transient acute vestibular syndrome	Duncan.Smyth@ccdhb.org.nz
11:45	Benjamin Tsang	Not your case of typical vestibular neuritis	Benjamin.Tsang@health.qld.gov.au
12:00	Benjamin Nham	Vestibular event monitoring in the emergency room	benjaminsb.nham@gmail.com
12:15	Michael Halmagyi	Isolated positional vertigo of vascular origin	gmh.icn@gmail.com

TIME	SPEAKER	TITLE	EMAIL CONTACT
12:30	LUNCH	Lambton Pre-Function Lobby	
Chair	Miriam Welgampola		m.welgampola@gmail.com
13:30	David Zee	Central vestibular disorders: Wernickes disease and stroke	dzee@jhu.edu
14:15	Emma Argaet	Characteristics of Benign Positional Vertigo tested on the Epley omni-ax chair	emma.argaet.audiologist@gmail.com
14:30	Laura Power	BPPB myth busters, how much of the BPPV dogma is actually correct?	laura_power@live.com.au
14:45	Anne Burston	BPPV App	kapitidizzinessandbalance@gmail.com
15:00	Danica Xie	Neuro-otology patients report significant levels of cognitive dysfunction	z5062273@student.unsw.edu.au
15:15	Paul Smith	New Software dedicated to virtual mazes for human neurocognitive investigations	paul.smith@otago.ac.nz
15:30	BREAK	Lambton Pre-Function Lobby	
Chair	Rachael Taylor		ian.curthoys@sydney.edu.au
16:00	Paul Smith	The Neurobiological Basis of Spatial Memory Deficits Following Vestibular Dysfunction: Modulation of Hippocampal Long-Term Potentiation and NMDA Receptors	paul.smith@otago.ac.nz
16:15	Stuart Mossman	Familiarity, confidence and near misses	stuart@mossman.net.nz
16:30	Jeremy Hornibrook	Tone burst electrocochleography to separate Meniere's disease and vestibular migraine	jeremy@jhornibrook.com
16:45	Laura Power	Toward objective clinical diagnosis of ataxia	laura_power@live.com.au
17:00	John Waterston	CLOSE	
Sunday 25 November - Teaching session (Location - Lambton Rooms 1 & 2)			
Chair	Stuart Mossman		
8:00	Leigh McGarvie	Semicircular canal anatomy, physiology and vHIT techniques, pitfalls and misinterpretation	
8:45	Elodie Chiarovano / Rachael Taylor	Otolith anatomy and physiology. cVEMPS and oVEMPs. Technical aspects and which test for the right patient	

TIME	SPEAKER	TITLE	EMAIL CONTACT
9:30	Professor David Zee	Deciphering some mysteries of nystagmus: a video tutorial	
10:15	BREAK	Lambton Pre-Function Lobby	
Chair	John Tomich		jtomich@tomich.com.au
10:35	Miriam Welgampola	Unusual forms of BPPV and migraine	
11:00	John Waterston	Vestibular migraine - an unrecognised treatable condition	
11:25	Professor Michael Halmagyi	Is my vertigo central or peripheral?	
11:50	Justine Bradley	What are the important basics for a new Neurotologist?	
12:15	Assoc Professor Phil Bird	What a Neurologist should know about otology	
12:40	Justine Bradley	CLOSE	

For Conference Enquiries
